

April 20, 1977

LB 512

PRESIDENT: That's been accepted.

SENATOR SCHMIT: That's been accepted.

PRESIDENT: That was the first 10 minutes, then the last 5 minutes I understood that you were explaining the bill.

SENATOR SCHMIT: Yes and I did.

PRESIDENT: And we do not have any amendments then before the floor.

SENATOR SCHMIT: I have no further amendments, Mr. President.

PRESIDENT: That's right. Senator Keyes...

SENATOR KEYES: I'll take the last half of my amendment then, the last two sections. That is farm equipment, livestock, and business inventory in the rotation that the Governor would like to have them in.

CLERK: Senator, can you identify which ones those are because the amendment I have does not so identify it?

SENATOR KEYES: The amendment you have simply says the section...

CLERK: Are you talking of what the amendment to Section 6?

SENATOR KEYES: Section 3 on page 3, line 22 strike "effective..."

CLERK: That has been accepted. So do you want to withdraw that one?

SENATOR KEYES: Yes, that is withdrawn. That portion of the amendment is withdrawn.

CLERK: How about number 4?

SENATOR KEYES: Number 4, I'd like to have number 4, number 5, and number 6, and number 7 accepted.

CLERK: OK, now those amendments, Mr. President, are found on page 1376 of the Journal. The only one that Senator Keyes has withdrawn is the first paragraph so there are four more paragraphs to the Keyes amendment.

SENATOR KEYES: Do you want to tell them what they do basically? What the amendment...I'll tell you basically what the amendments do...

CLERK: Here's all I have is Section 4, page 4, line 6 strike "two" and insert "three". Section 5, page 4, line 7, strike "effective January 1, 79". We've taken care of essentially number 5 haven't we in the Schmit amendment, so you want to withdraw that one? That is your number 3. It's been adopted.

SENATOR KEYES: Yes.

CLERK: How about your number 7 is on page 7, yes, that has been taken care of.

SENATOR KEYES: That's been taken care of. The only one I want to work out and talk about now for just a few minutes and
